

SKILLS MANUAL

CHAPTER ELEVEN

BASIC WILDLAND FIRE FIGHTER

NFPA 1051, 2016 Edition

EFFECTIVE JANUARY 1, 2018

Texas Commission on Fire Protection
P.O. Box 2286 Austin, Texas 78768-2286 (512) 936-3838

INSTRUCTION SHEET BASIC WILDLAND FIRE FIGHTER PERFORMANCE SKILLS

Format

The Basic Wildland Fire Fighter performance skills were designed to meet both the NFPA and NWCG national standards. For optimal learning, scenario-based training and role-playing is recommended; however, based on departmental needs certain activities may be simulated by other means. Skills demonstration requires realism, and should be conducted at various wildland/urban interface situations when possible. The Course Instructor should specify time constraints as necessary.

Note: The Basic Wildland Fire Fighter performance skills are numbered so that there is one skill per subject area. This means that all of the skills will be evaluated during the final TCFP designated skills testing. Some skills have multiple sections which are all considered part of that skill. Therefore, all parts of each skill must be evaluated.

Scoring Method

The scoring method is satisfactory (S) or unsatisfactory (U) for each grading criteria, and a Pass or Fail for the entire skill sheet. In order to successfully pass the Basic Wildland Fire Fighter skills evaluation, the Basic Wildland Fire Fighter candidate must receive satisfactory scores in all of the grading criteria. Any grading criteria marked unsatisfactory shall require the examiner to explain the reason for the failure in written form in the comments section of the skill sheet.

Preparation and Equipment

Some of the skills require the use of departmental policies. It is suggested that the Course Instructor use the policies and procedures from his/her department. If teaching this course at a non-departmental institution, acquire a fire department's policies and procedures, or modification thereof, to complete these skills.

TEXAS COMMISSION ON FIRE PROTECTION
BASIC WILDLAND FIREFIGHTER
Performance Standards Evaluation

SKILL #1
Using a Fire Shelter

Subject: General

NFPA 1051, 2016 Edition, 4.1.1

Basic Wildland Firefighter

OBJECTIVE

Properly uses required personal protective equipment. (4.1.1)

INSTRUCTIONS - procedures for achieving the objective

You will be given a practice fire shelter in a protective bag. You will demonstrate how to properly deploy a fire shelter in 25 seconds or less. You will begin on my instruction to start. **Time will end** when you state to me that the shelter has been properly deployed. **The skill will end** when you are told that it is safe to come out of the shelter. Do you understand these instructions?

EXAMINER'S NOTE

The wildland firefighter trainee will not be allowed to review the performance steps at the time of testing.

PREPARATION & EQUIPMENT

Practice fire shelter
Hand tools
Timing device

The wildland firefighter trainee shall accomplish the skill wearing "**FULL PROTECTIVE CLOTHING FOR WILDLAND FIREFIGHTERS**" as defined in the *Fireline Handbook* (Appendix A, p. 39) which includes hard hat, fire resistant shirt/pants or jump suit, 8" leather boots, leather gloves, fire shelter, hearing/eye protection.

SKILL #2 – Part 1
Inspect Personal Protective Equipment

Subject: Preparedness

NFPA 1051, 2016 Edition, 4.3.2, 4.1.1

Basic Wildland Firefighter

OBJECTIVE

Maintain assigned personal protective equipment, given the standard equipment issue, so that the equipment is serviceable and available for use on the fireline and defects are recognized and reported to the supervisor. (4.3.2)

Basic verbal communications (4.1.1)

INSTRUCTIONS - procedures for achieving the objective

You will be given a complete set of wildland firefighter personal protective equipment. You shall perform an inspection of the protective equipment in a proficient manner. You will verbally state whether each item is serviceable or defective. You shall also describe the inspection frequency for fire shelters. You will begin on my instruction to start. The skill will end when you state to me that you have completed all of the identified steps. Do you understand these instructions?

EXAMINER'S NOTE

The wildland firefighter trainee will not be allowed to review the performance steps at the time of testing. The frequency of fire shelter inspection is upon shelter issuance, the beginning of each fire season, and every two weeks during each fire season.

PREPARATION & EQUIPMENT

Practice fire shelter
Hard hat
Fire resistant shirt/pants or jump suit
8" leather boots
Leather gloves
Eye protection

SKILL #2 – Part 2
Equipment Maintenance

Subject: Preparedness

NFPA 1051, 4.3.3

Basic Wildland Firefighter

OBJECTIVE

Maintain assigned suppression hand tools and equipment, given tools and equipment and agency maintenance specifications, so that assigned equipment is maintained and serviceable and defects are recognized and reported to the supervisor. (4.3.3)

INSTRUCTIONS - procedures for achieving the objective

Given a randomly selected piece of equipment, you shall demonstrate the ability to clean, check, sharpen and place equipment in a ready state or report otherwise.

- Axe
- Pulaski
- McLeod
- Combi tool
- Shovel
- Other tools that can be sharpened

EXAMINER'S NOTE

The wildland firefighter trainee will not be allowed to review the performance steps at the time of testing.

The examiner will identify which tool is chosen for the skill.

PREPARATION & EQUIPMENT

Axe
Pulaski
McLeod
Combi tool
Shovel
Grub hoe
File

The wildland firefighter trainee shall accomplish the skill wearing leather gloves and eye protection.

SKILL #3 – Part 1
Using the IRPG

Subject: Suppression

NFPA 1051, 2016 Edition, 4.5.3

Basic Wildland Firefighter

OBJECTIVE

Recognize hazards and unsafe situations given a wildland or wildland/urban interface fire and the standard safety policies and procedures of the agency, so that the hazard(s) and unsafe condition(s) are communicated to the supervisor and appropriate action is taken. (4.5.3)

INSTRUCTIONS - procedures for achieving the objective

Using the *IRPG*, you will identify and describe the standard safety policies and procedures for a wildland or wildland/urban interface fire. You will begin on my instruction to start. The skill will end when you state to me that you have completed all of the identified steps. Do you understand these instructions?

EXAMINER'S NOTE

The wildland firefighter trainee will not be allowed to review the performance steps at the time of testing. To meet the skill steps evaluation criteria, the wildland firefighter trainee shall identify (locate in the *IRPG*) and describe (summarize and explain the importance of) each of the standard safety policies and procedures.

PREPARATION & EQUIPMENT

Protect Structures

Subject: Suppression

NFPA 1051, 2016 Edition, 4.5.6

Basic Wildland Firefighter

OBJECTIVE

Describe the methods to reduce the threat of fire exposure to improved properties given a wildland or urban/interface fire, suppression tools, and equipment so that improvements are protected. (4.5.6)

INSTRUCTIONS - procedures for achieving the objective

Given a wildland or urban/interface fire scenario and using the *IRPG* or *Wildland Fire Incident Management Field Guide*, you will describe methods to reduce the threat of fire exposure to structures. You will begin on my instruction to start. The skill will end when you state to me that you have completed all of the identified steps. Do you understand these instructions?

EXAMINER'S NOTE

The wildland firefighter trainee will not be allowed to review the performance steps at the time of testing.

The wildland firefighter trainee shall be provided with a picture or video of a wildland or urban/interface with structures.

SKILL #3 – Part 5
Mop-Up Fire Area

Subject: Suppression

NFPA 1051, 2016 Edition, 4.5.7

Basic Wildland Firefighter

OBJECTIVE

Mop up fire area, given a wildland fire, suppression tools, and water or other suppression agents and equipment, so that burning fuels that threaten escape are located and extinguished. (4.5.7)

INSTRUCTIONS - procedures for achieving the objective

Given a wildland fire scenario and using the *IRPG* or *Wildland Fire Incident Management Field Guide*, you will describe the tools and techniques needed to properly mop up a fire area to prevent reignition. You will begin on my instruction to start. The skill will end when you state to me that you have completed all of the identified steps. Do you understand these instructions?

EXAMINER'S NOTE

The wildland firefighter trainee will not be allowed to review the performance steps at the time of testing.

The wildland firefighter trainee shall be provided with a picture or video of a controlled wildland fire.
