## A Volume From the Library

### Streaming Videos and a Call for Committee Members

November 12, 2015

#### Free Online Training Videos

The commission's Fire Protection Resource Library is now offering online streaming of training videos via Action Training Systems. Fire service instructors can use this free service to supplement their in-house training.

You can now stream training videos directly from ATS to your computer by signing up through the commission's library. Instead of requesting ATS videos from the library, waiting for them to arrive, and then having to pay to send them back, you can just sign in and watch them online - for free! Over 80 videos including the Firefighter I & II, HAZMAT, Apparatus, Rescue, RIT, Extrication, and Fire Officer I series are available to you through this program. This service is available to instructors working for both paid and volunteer

departments. On a case-by-case basis, other fire protection personnel may be eligible to take advantage of this new program. For more information, or to sign up, please email the [librarian](#).

#### Seeking Advisory Board Representative

The commission is seeking two representatives for the Fire Fighter Advisory Committee. The committee is responsible for reviewing and commenting on all rule changes proposed by the commission. To qualify, you must be considered either: active or retired "fire protection personnel" as defined by Texas Government Code §419.021, **or** a volunteer fire fighter or volunteer fire chief. You may submit your application via email, fax or US Postal Service no later than December 31st, 2015 (see Additional Resources sidebar for application and details).
