

Texas Department of Public Safety DRIVER LICENSE DIVISION

Attention: All Fire Departments outside of the 50-mile radius of the 25 designated CDL sites.

Due to new federal regulations, the Department of Public Safety CDL **skills** test will be administered throughout the state of Texas at 25 specific locations effective 1 July, 2016.

If your Fire Department is outside of a 50-mile radius of one of these 25 sites, DPS is offering the option to request a skills test location utilizing your local facilities. This also includes Class B CDL Exempt Vehicles.

Your site must meet the requirements listed below to be considered:

- Flat parking space of at least 35 feet x 245 feet to conduct backing maneuvers.
- An entrance and exit that allows easy access that is not impeded by traffic.
- Access to a highway or major road network for road tests.

A CDL Skills Mobile Site may already be available in your area.

Please note: A request to utilize your facility to conduct CDL skills tests must be made in a timely manner to be considered. Driver License personnel must first inspect and prepare your location to ensure it meets the new federal standards for skills testing.

Your request can be made by contacting your Driver License Regional Manager.

Driver License Division Regional Managers
