

PLAN EXAMINER SKILLS MANUAL

CHAPTER FOUR PLAN EXAMINER

NFPA 1031, 2014 Edition

Effective June 1, 2016

Texas Commission on Fire Protection
P.O. Box 2286 Austin, Texas 78768-2286 (512) 936-3838

INSTRUCTION SHEET

PLAN EXAMINER I PERFORMANCE SKILLS

Format

Similar Plan Examiner I skills are combined into one skill sheet when possible. These skill sheets should be used in a progressive type grading format. The skill sheet is divided into individual skill objectives. The Examiner should evaluate the Plan Examiner I candidates as they complete each skill of the evaluation. The skills that could not be combined are provided as independent skill sheets.

For skill sheets that do not contain time constraints, the Course Instructor should specify time constraints as necessary.

Scoring Method

The scoring method is Satisfactory (S) or Unsatisfactory (U) for each step of the skill objective, and a Pass or Fail for each individual skill section. In order to successfully pass an individual skill section, the Plan Examiner I candidate must receive satisfactory scores in all the steps of the skill objective. In order to receive an overall Pass on the skill sheet, the Plan Examiner I candidate must receive a passing score for all individual skill sections.

If a step of a skill objective is scored "Unsatisfactory", only that skill objective must be retested. For example, if a candidate fails step b of Skill 11, he or she must be retested on Skill 11, in its entirety. Any Unsatisfactory or individual skill failure shall require the examiner to explain the reason for the failure in written form in the comments section of the skill sheet.

Preparation and Equipment

When necessary, additional information is provided under the heading "Evaluator Information - Preparation and Equipment." Examples are provided to assist the evaluator. Course Instructors are encouraged to use these examples to meet the minimum requirements, or they may modify the examples to meet or exceed the standard to fit their department or agency needs.

Many of the skill sheets require the use of department policies. It is suggested that the Course Instructors use the policies and procedures of his or her department. If teaching this course at a non-departmental institution, acquire a fire department's policies and procedures, or modification thereof, to complete these skills.

For optimal learning, scenario-based training and role-playing is recommended; however, based on departmental needs certain activities may be simulated by other means.

TEXAS COMMISSION ON FIRE PROTECTION

Plan Examiner I

Performance Standards Evaluation

Skill 1- Administration

Prepare reports, facilitate the resolution of deficiencies, process plan review documents, and determine the applicable code or standard

NFPA 1031 7.2.1, 7.2.2, 7.2.3, 7.2.4

Plan Examiner I

OBJECTIVE

Prepare reports, given observations from a plan review, so that the report is clear, concise, and accurately reflects the findings of the plan review in accordance with applicable codes and standards and the policies and procedures of the jurisdiction. (7.2.1)

Facilitate the resolution of deficiencies identified during the plan review, given a submittal and the established practices and procedures of the jurisdiction, so that deficiencies are identified, documented, and reported to the plan submitter with applicable references to codes and standards. (7.2.2)

Process plan review documents, given a set of plans and specifications, so that required permits are issued in accordance with the policies of the jurisdiction. (7.2.3)

Determine the applicable code or standard, given a fire protection issue, so that the proper document, edition, and section are referenced. (7.2.4)

INSTRUCTIONS - procedures for achieving the objectives

Inspection situations should encompass enough detail and information to facilitate realistic plan review activities. This skill is intended to resemble a realistic situation in which a plan examiner would perform.

- The Inspector candidate, given specific observations from a plan review, will prepare a report in accordance with applicable codes and standards, and the policies and procedures of the jurisdiction.
- The Inspector candidate, given a submittal and the established practices and procedures of the jurisdiction, shall identify deficiencies, document the deficiencies, and report to the plan submitter with applicable references to code and standards and alternative methods for compliance are identified.
- The Inspector candidate, given a set of plans and specifications, shall evaluate to issue or deny a permit in accordance with the policies of the jurisdiction.

TEXAS COMMISSION ON FIRE PROTECTION

Plan Examiner I

Performance Standards Evaluation

- The Inspector candidate, given a specific plan review fire protection issue, shall determine the applicable code or standard so that the proper document, edition, and section are referenced.

EXAMINER'S NOTE

The plan review skills build upon each other in a progressive format, but their order may be changed as needed, based on jurisdictional processes.

PREPARATION & EQUIPMENT

Most skills require the use of a pen or pencil, paper, applicable codes and standards, local practices and procedures, and a computer with a printer or typewriter and official letterhead if applicable. Additional preparation and equipment information is located with the specific performance skill.

TEXAS COMMISSION ON FIRE PROTECTION

Plan Examiner I

Performance Standards Evaluation

Skill 1 - Administration

Prepare reports, facilitate the resolution of deficiencies, process plan review documents, and determine the applicable code or standard

Skill 1 Evaluator Information - Preparation and Equipment

Instruction	Example
Provide a complete set of plans submittal situation with an obvious definitive fire protection issue or deficiency.	<i>B occupancy, 4200 sq. ft. Doctors office, w/minor outpatient surgery. Civil, Arch, Mech, Elec, FP, Fire Alarm Submittal, Specifications</i>
Provide a copy of a policy statement or statements that would address the practices and procedures of the jurisdiction.	<i>A one-page fire alarm plan submittal without any state licensing information provided on the plan submittal.</i>
Provide a copy of an applicable policy for processing plan review documents.	<i>A one page hydraulically calculated fire sprinkler plan submittal without any hydraulic calculations provided with the plan.</i>
Provide a permit form for the applicable jurisdiction.	<i><u>Specification:</u> Fire Extinguishers shall be 2A 10 BC rated in all areas of the restaurant.</i>
Provide a log page to document status of plan review and incorporate any permit numbers.	<i><u>Issue:</u> Cooking areas may require a class K extinguisher.</i>
Inspector candidate will demonstrate the skill to facilitate resolution of deficiencies through a written report and verbalized alternative methods of compliance to reflect skill to resolve.	<i><u>Policy Statement:</u> All plans submitted with fire protection elements shall bear the state licensing data or seal of the registered person planning or designing the system.</i>
Inspector candidate will determine and identify applicable codes and standards to noted violations or issues.	<i><u>Policy Statement:</u> All fire protection submittals shall be complete submittals at time of submission.</i>
	<i>International Fire Code, (IFC) Section 901.2, Construction Documents. Page 1, Failed to provide complete information to verify code compliance. Provide Hydraulic Calculations as noted on the Plan.</i>

TEXAS COMMISSION ON FIRE PROTECTION

Plan Examiner I

Performance Standards Evaluation

Skill Number 2 - Plans Review

Identify the requirements for a fire protection or life safety system; evaluate code compliance; evaluate plans for the installation of fire protection and life safety systems

NFPA 1031 7.3.1, 7.3.6, 7.3.10

Plan Examiner I

OBJECTIVE

Identify the requirements for fire protection or a life safety system, given a set of plans, so that all deficiencies are identified, documented, and reported in accordance with the policies of the jurisdiction. (7.3.1)

Evaluate code compliance for required fire flow and hydrant location and spacing, given a plan, required fire flow, and fire flow test results, so that hydrants are correctly located and all deficiencies are identified, documented, and reported in accordance with the policies of the jurisdiction. (7.3.6)

Evaluate plans for the installation of fire protection and life safety systems, given a plan submittal, so that the fire protection systems, including pre-engineered systems, and equipment are reviewed and all deficiencies are identified, documented, and reported in accordance with the policies and procedures of the jurisdiction. (7.3.10)

INSTRUCTIONS - procedures for achieving the objectives

The Inspector candidate shall perform all the steps necessary to complete one of the following three scenarios. The one scenario the inspector candidate is to perform will be randomly selected by the TCFP from the choices below:

- A. Demonstrate the ability to read basic plans and identify symbols used by the jurisdiction, apply codes and standards, and identify, document and report all deficiencies in accordance with the policies of the jurisdiction.
- B. Given a set of plans, required fire flow, and fire flow test results, interpret fire flow test results, determine fire hydrant locations and spacing, and read fire flow graphs.
- C. Given a plan submittal, review the specifications, classify occupancies, interpret and apply standards to the fire protection systems, and identify, document and report all deficiencies in accordance with the policies of the jurisdiction.

EXAMINER'S NOTE

Skills examiners shall ensure realism in the skills evaluation to a basic level of understanding and skills demonstration for evaluation and calculations.

TEXAS COMMISSION ON FIRE PROTECTION

Plans Examiner I

Performance Standards Evaluation

Skill 3 - Plans Review

Verify occupancy type, construction type, occupant load, and that required egress is provided; evaluate emergency vehicle access

NFPA 1031 7.3.2, 7.3.3, 7.3.4, 7.3.5, 7.3.7

Plans Examiner I

OBJECTIVE

Verify the classification of the occupancy type, given a set of plans, specifications, and a description of a building and its intended use, so that the classification is made according to applicable codes and standards. (7.3.2)

Verify the classification of the construction type, given a set of plans, including the proposed area, height, number of stories, and location, so that the proposed building is classified in accordance with applicable codes and standards and deficiencies are identified, documented, and reported. (7.3.3)

Verify the occupant load, given a set of plans, so that the maximum allowable occupant load is in accordance with applicable codes and standards. (7.3.4)

Verify that required egress is provided, given a set of plans and an occupant load, so that all required egress elements are provided and deficiencies are identified, documented, and reported in accordance with the policies of the jurisdiction. (7.3.5)

Evaluate emergency vehicle access, given a plan, so that emergency access is provided in accordance with applicable codes and standards and deficiencies are identified, documented, and reported in accordance with the policies of the jurisdiction. (7.3.7)

INSTRUCTIONS - procedures for achieving the objectives

The Inspector candidate, given a set of plans, specifications and a description of a building and its intended use, verify the occupancy classification in accordance with applicable codes and standards.

The Inspector candidate, given a set of plans, shall verify the construction type and that the area, height, number of stories and location is in accordance with applicable codes and standards and any deficiencies are identified, documented and reported.

The Inspector candidate, given a set of plans and measuring tools will accurately calculate the occupant load, and identify occupancy factors related to various occupancy types.

TEXAS COMMISSION ON FIRE PROTECTION

Plans Examiner I

Performance Standards Evaluation

The Inspector candidate, given a set of plans and an occupant load will verify that required egress is provided and identify, document and report deficiencies in accordance with the policies of the jurisdiction.

The Inspector candidate, given a set of plans, will interpret and use plan scale to evaluate code compliance of emergency vehicle access and identify, document and report deficiencies in accordance with the policies of the jurisdiction.

EXAMINER'S NOTE

The plan review skills build upon each other in a progressive format, but their order may be changed as needed, based on jurisdictional processes.

PREPARATION & EQUIPMENT

Most skills require the use of a pen or pencil, paper, applicable codes and standards, local practices and procedures, and a computer with a printer or typewriter and official letterhead if applicable. Additional preparation and equipment information is located with the specific performance skill.

TEXAS COMMISSION ON FIRE PROTECTION

Plans Examiner I

Performance Standards Evaluation

Skill 3 - Evaluator Information-Preparation and Equipment

Instruction	Example
Provide a complete set of plans and specifications for a single occupancy. Provide a plan so that the occupant load can be determined. Provide information as necessary to achieve the objectives.	<i>Mercantile Occupancy, Civil, Arch, Structural, Elec., Plumb., Mech., FP Assembly Occupancy such as a church sanctuary with pews.</i>
Provide a copy of applicable codes and standards to verify occupancy class and occupant load.	<i>International Building Code Chapter 10, 2009 ed.</i>
Use measuring tools to determine occupant load.	<i>Using the correct measuring device, such as an architect's scale, and the correct reference, the candidate should accurately calculate the occupant load.</i>
Identify the occupancy factors related to the occupancy type	<i>Candidate shall identify that the church with pews allows one person per 18".</i>
Accurately calculate the occupant load	<i>Occupant load is 429.</i>
Using the calculated occupant load verify that adequate egress was provided. Exit widths, number of exits and location of the exits.	<i>Verify the total amount of egress capability based on the occupant load.</i>
Identify the construction type	<i>Noncombustible – Type IIB</i>
Verify emergency vehicle access is in compliance with the code for widths, distances, clearance heights and turning radiuses.	<i>Fire lane is a dead end into the rear parking lot and exceeds the limits allowed – provide a turnaround or hammerhead to allow emergency vehicles to turn around.</i>
Identify, document and report all deficiencies.	<i>The rear exit door does not have the required landing on the exterior side.</i>

TEXAS COMMISSION ON FIRE PROTECTION

Plans Examiner I

Performance Standards Evaluation

Skill 3 - Plans Review

Verify the classification of the occupancy type, construction type, occupant load, and required egress is provided, Evaluate emergency vehicle access

Candidate: _____ Notes: _____

Training Provider: _____

PLANS EXAMINER I	<u>TEST</u>		<u>RETEST</u>	
	S	U	S	U
Skill 3				
Verify the classification of the occupancy type, given a set of plans, specifications, and a description of a building and its intended use, so that the classification is made according to applicable codes and standards. (7.3.2)				
Verify the classification of the construction type, given a set of plans, including the proposed area, height, number of stories, and location, so that the proposed building is classified in accordance with applicable codes and standards and deficiencies are identified, documented, and reported. (7.3.3)				
Verify the occupant load, given a set of plans, so that the maximum allowable occupant load is in accordance with applicable codes and standards. (7.3.4)				
Verify that required egress is provided, given a set of plans and an occupant load, so that all required egress elements are provided and deficiencies are identified, documented, and reported in accordance with the policies of the jurisdiction. (7.3.5)				
Evaluate emergency vehicle access, given a plan, so that emergency access is provided in accordance with applicable codes and standards and deficiencies are identified, documented, and reported in accordance with the policies of the jurisdiction. (7.3.7)				

TEXAS COMMISSION ON FIRE PROTECTION
Plans Examiner I
Performance Standards Evaluation

The candidate:	S	U	S	U
a) Evaluated the plan for occupancy use information				
b) Verified the plan to the specifications and building intended use				
c) Determined applicable code, standards or regulations				
d) Verified the occupancy class based on the codes and standards				
e) Identified fire hazards presented by various occupancies and operational features				
f) Calculated occupant loads correctly using various measuring tools				
g) Determined egress requirements correctly				
h) Verified the area and height are permitted based on the construction type				
i) Verified the number of stories and location are permitted based on the construction type				
j) Verified the proposed building is classified in accordance with applicable codes and standards				
k) Used plan scale or other measuring tools to interpret plans				
l) Accurately determined compliance of emergency vehicle access				
m) Identified, documented and reported deficiencies				

S = Satisfactorily completed/performed

U = Unsatisfactorily performed/failed to meet objective or grading step

All steps of the skill objective are mandatory and must be scored as “Satisfactory” to pass the skill.

TEXAS COMMISSION ON FIRE PROTECTION

Plan Examiner I

Performance Standards Evaluation

Skill 4 - Plans Review

Recommend policies and procedures for the delivery of plan review services and participate in legal proceedings

NFPA 1031 7.3.8, 7.3.9

Plan Examiner I

OBJECTIVE

Recommend policies and procedures for the delivery of plan review services, given management objectives, so that plan reviews are carried out in accordance with the policies of the jurisdiction and due process of the law is followed. (7.3.8)

Participate in legal proceedings, given the findings of a plan review and consultation with legal counsel, so that testimony is accurate and the plan reviewer's demeanor is appropriate to the proceeding. (7.3.9)

INSTRUCTIONS - procedures for achieving the objectives

The Inspector candidate shall perform all the steps necessary to complete one of the following two scenarios. The one scenario the inspector candidate is to perform will be randomly selected by the TCFP from the choices below:

- A. Given a management objective, recommend policies and procedures for the delivery of plan review services in accordance with due process of law.
- B. Given findings of a plan review and consultation with legal counsel, participate in a mock legal proceeding, and testify with accuracy to the given facts and with a demeanor appropriate to the proceedings.

EXAMINER'S NOTE

Skills examiners shall ensure realism in the skills evaluation to a basic level of understanding and skills demonstration for evaluation and calculations.

PREPARATION & EQUIPMENT

Most skills require the use of a pen or pencil, paper, applicable codes and standards, local practices and procedures, and a computer with a printer or typewriter and official letterhead, if applicable. Additional preparation and equipment information is located with the specific performance skill.

Skill Number 4 Evaluator Information-Preparation and Equipment

Specific management objective

Instruction	Example
Provide a situation or incident that conflicts with current policies or procedures related to plan review and management objectives.	<u><i>Policy:</i></u> <i>Alternative construction methods and materials shall be in accordance with the fire code.</i>
	<u><i>Management Objective:</i></u> <i>Provide customers with options for construction methods and materials.</i>
	<u><i>Situation:</i></u> <i>During plan review, the plan examiner identifies a proposed installation that is noted as alternative to the code.</i>
	<u><i>Policy Recommendation:</i></u> <i>All alternatives for construction methods and materials must be accompanied by supporting documents to reflect that the plan is prepared by, and bears the stamp of, a registered design professional.</i>
Provide specific plan review findings.	<i>Provide a list of code deficiencies from a plan review.</i>
Provide mock legal consultation brief.	<i>Provide a sample legal consultation brief identifying and explaining findings from a plan review.</i>
Create a mock courtroom or panel environment for testimony.	<i>Arrange a classroom to resemble a courtroom or panel setting allowing for testimony of plan review findings. Provide a field examiner or instructor to challenge the testimony of the plan examiner candidate.</i>
Present the case and question the candidate in the legal process	

TEXAS COMMISSION ON FIRE PROTECTION
Plan Examiner I
Performance Standards Evaluation

B - Legal proceedings				
1. Testify to facts and recognized opinions				
2. Provided accurate testimony				
3. Demonstrated appropriate demeanor to the proceeding				
4. Provided accurate testimony to posed questions.				

S = Satisfactorily completed/performed

U = Unsatisfactorily performed/failed to meet objective or grading step

All steps of the skill objective are mandatory and must be scored as "Satisfactory" to pass the skill.
